

Accomplish more with **peace of mind.**
The **reliable** tubing & label printer.

BMP[®]91
TUBING & LABEL PRINTER

Brady's **BMP[®]91** TUBING & LABEL PRINTER allows you make your mark with the strength and the **reliability** you need, **intelligent features** to save you time and money, and with the option of **true mobility**.

Trusted Reliability

We've designed the BMP91 with durability and long lasting trouble free performance at the utmost importance.

- Rugged, drop tested industrial design
- Use standalone or via your computer
- High print speed of up to 25mm/s

Intelligent Features

We know there are more important tasks than printing markers, so unique to the Brady BMP91 Printer is the 200m print ribbon. It's the longest in the market and giving you more time away from your printer getting your work done.

- Automatic cutting with variable half-cut settings
- Built-in advanced serialization and automatic font sizing
- Smart cell enabled cartridges for automatic formatting
- Print and edit at the same time

True Mobility

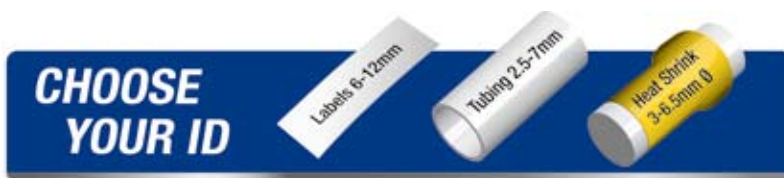

Take your printing anywhere with the BMP91 Tubing & Label Printer. This optional battery-powered printer with a long-lasting 200m ribbon lets you print unconstrained by wires on site, when you need it.

The BMP®91Printer is more than just your next tubing printer.... it is the ideal partner for all your electrical identification requirements

Suitable for:

- Panel builders
- On-site installers and system integrators
- Electrical contractors repairing and maintaining installations

Print on PVC tubing, Adhesive Labels & Heatshrink tubing...

TubingMark™ Software

A time-saving solution for managing large marker print file set up, editing and printing

- Simple text entry, formatting and editing
- Let you see labels and tubes before you print for more accuracy
- Several common bar code symbologies available
